

# Investment passport of Urban District Electrostal of the Moscow region

# DEAR INVESTORS!

The leader of Urban District Elektrostal of the  
Moscow region - Inna Yurivna Volkova

I want to draw your attention to the following information resource:

## **«THE INVESTMENT PASSPORT OF URBAN DISTRICT ELEKTROSTAL»!**

I am sure that the presented project will not only be a useful source of information but it will also become a guide for active entrepreneurs and potential investors.

The investment passport represents information about socio-economic indicators, the investment climate, vacant production facilities, and lands that are placed in the territory of Elektrostal.

Today Elektrostal is an intensively progressing city with a rich history and powerful industry potential. The realization of major investment projects, modernization of production facilities in industries, and development of engineering and communication infrastructure are supporting it.

We are ready to provide assistance in creating the most convenient business environment. Besides, we are interested in attracting investments.

Urban District Elektrostal is open to cooperate with investors in all spheres. It does not matter whether it is industry, the service sphere or agriculture.

We are ready to consider any investment projects related to development of businesses and aimed at improving the quality of our citizens' lives. We support an efficient entrepreneur.

I hope that getting acquainted with Elektrostal City will be useful for you. I invite all the partners interested in long-term cooperation to have a constructive dialogue with us. I look forward to our next meeting!

# Urban District Electrostal of the Moscow region

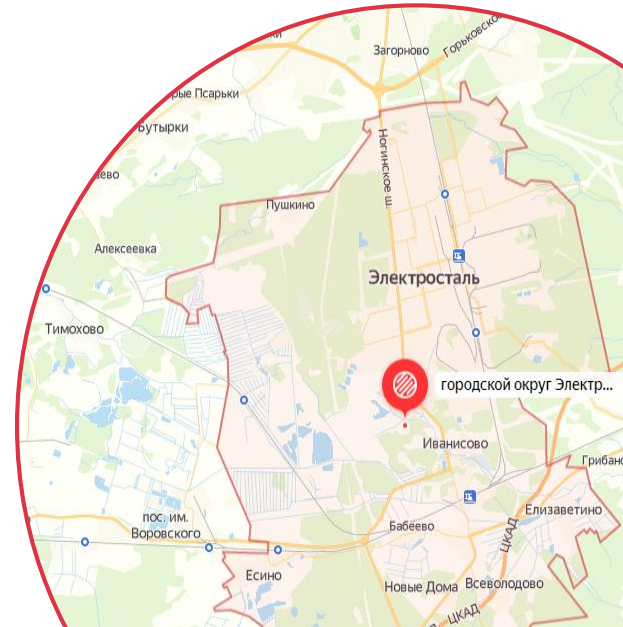

Urban District Electrostal of the Moscow region is part of the Moscow agglomeration and situated in the east Moscow suburbs on the right bank of the Klyazma river.

Urban District Electrostal is placed on the international highway M-7 «Volga» and the railroad Moscow-Vladimir. Besides, there is the Ring Road near Electrostal City.

Urban District Electrostal is surrounded by woodlands and rivers. For example, the Khordtsa River and the Marinka River. Besides, the Vokhna tributary (the Vokhonka River) originates in Electrostal city.

Electrostal City is the administrative center, its territory is 13,537 hectares, and its population is 150,729.

On April 7th, 2015, Elektrostal was awarded the honorary title of “City of Labor Valor and Glory”.

# Main advantages of Electrostal city of the Moscow region

1. Nearness to key railway and automotive hubs.
2. Highly developed manufacturing industrial production.
3. Presence of a developed social infrastructure and access to the Moscow's social infrastructure.
4. Developed housing market.
5. The city is a center of metallurgy and heavy machinery manufacturing – it has the country's largest production of nuclear fuel, high-quality steel, heavy machinery, and chemical products. Besides, there are more than a hundred and small enterprises, which are working and successfully developing in our city now.
6. Affordable cost of land lease/purchase.

## «MSZ» JSC (JSC «Machinery Manufacturing Plant»)

Address: 12, Karl Marx str., Electrostal city;

Tel: +7 (495) 702-99-01;

CEO: Alexey V. Zhiganin;

Average number of employees for 2024: 3 957;

Key activities:

Nuclear fuel for nuclear power plants with thermal and fast neutron reactors. Fuel is manufactured and supplied as FAs for different types of reactors

General goals:

Further modernization of production that will increase the labor productivity and product quality

## «Electrostal» Metallurgical Plant» JSC

Address: 1, Zheleznodorozhnaya str., Electrostal city;

Tel: +7 (496) 577-11-11;

CEO: Evgeny V. Shilnikov;

Average number of employees for 2024: 3 942;

Key activities:

Russia's leading company for the production of high-alloyed steels and alloys

General goals:

Providing an increase in the implementation of the business plan for production by 5.7% compared to 2022.

Carrying out the modernization of production

## «The Electrostal Heavy Engineering Works» JSC ("EZTM" JSC)

Information about the company:

Address: 19, Krasnaya str., Electrostal;

Телефон: +7 (496) 577-72-42;

CEO: Vladimir S. Zarudniy;

Average number of employees for 2024: 1 211 человека;

Key activities:

Production of metallurgical, mining and beneficiation equipment, fluid friction bearings, equipment for the oil and gas and cement industries, plastic recycling

General goals:

Over the next 10 years, JSC 'EZTM' plans to carry out a complete technical re-equipment and reconstruction of production and power management.

## OJSC Electrostal Chemical-Mechanical Plant named after N. D. Zelinsky

Information about the company :

Address: 1, Karl Marx str., Electrostal city;

Tel: +7 (499)638-36-20;

CEO: Anton V. Nechaev;

Average number of employees for 2024: 635;

Key activities: Development and manufacturing of filters for individual and collective protection against weapons of mass destruction and chemically hazardous substances.

General goals:

Further modernization of production that will increase the labor productivity and product quality

## «ENPO "NEORGANIKA» JSC ( ENPO – Electrostal scientific and production association )

Information about the company:

Address: Elektrostal city, Karla Marksa Street, 4

Tel: (496) 575-30-95, (496) 575-30-63

General Director: Oleg Y. Kamener

Average number of employees in 2024: 231

Main Activities: Development and production of modern individual and collective respiratory protection equipment for departmental law enforcement agencies and the civilian population.

General goals:

To substantiate and implement promising and breakthrough directions for the creation and improvement of special equipment and technologies through systemic research into market needs.

## «502 MERP» JSC (MERP – MILITARY EQUIPMENT REPAIR PLANT)

Information about the company:

Address: Elektrostal city, Vsevolodovo Village, Noginsk-5 Settlement

Tel: +7 (496) 523 20 83

CEO : Dmitry A. Sovrasov

Average number of employees in 2024: 344

Main Activities: JSC “502 ZRVTI” specializes in overhaul of air defense systems: anti-aircraft missile systems, radar stations, anti-aircraft and aviation missiles.

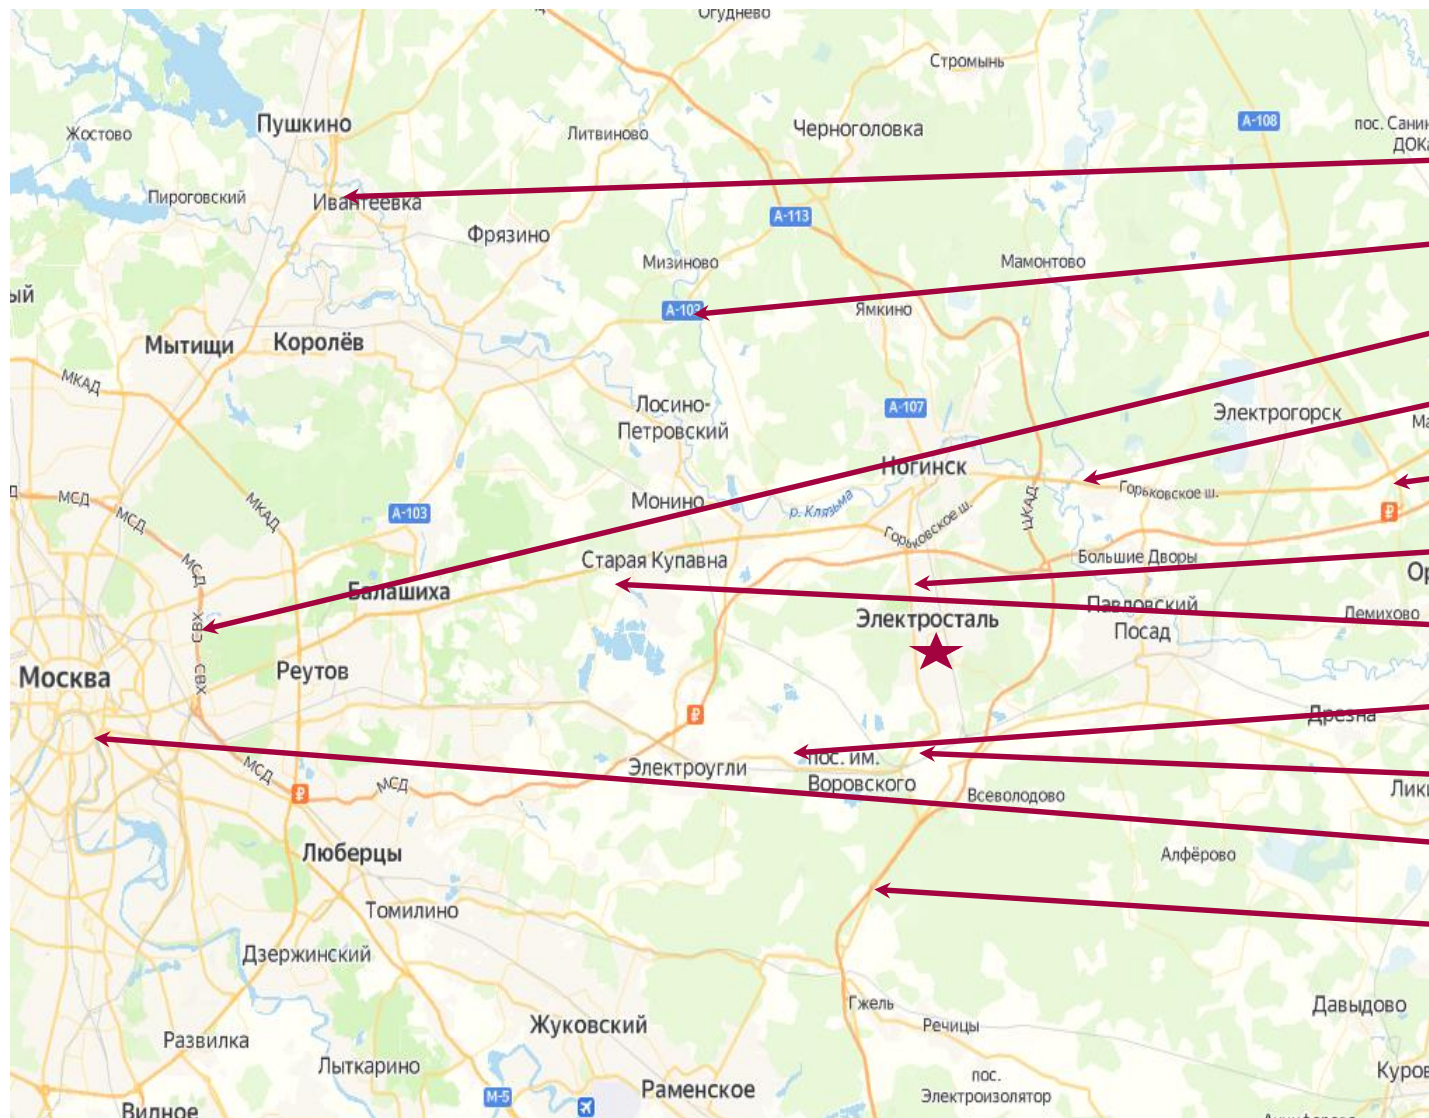

General goals:

In the sphere of production development, with the aim of improving the quality of manufactured products and expanding the range of services provided, the company plans to implement the following measures:

- Preparing production areas and commission workplaces for the repair of blocks and cells of communication equipment of the F2M product in workshop No. 1.

- Automation and reducing the time spent searching for faulty elements in cells included in the CWF devices, continue work on the implementation of new programs for control and repair of cells containing processor assemblies.

## Infrastructure facilities

# Municipal Educational Institutions

## Nowadays, on the territory of Elektrostal, you can see:

- 4 gymnasiums;
- 3 lyceums;
- 13 general education schools
- 2 boarding schools
- 1 evening shift general education school;
- 54 preschool educational institutions (child development centers, general development kindergartens, and combined kindergartens)
- 2 children's music schools. Students of Elektrostal's music schools have participated in and won over one hundred awards at international, all-Russian, regional, and zonal competitions.
- 3 centers of additional education: "Young Technicians Station," "Dialogue Center," and "Rostok Center"
- 1 children's art school. In 2008, the school was included in the book "The Heritage of the Russian State", published by the Ministry of Culture and Mass Communications of the Russian Federation. Students of the art school have repeatedly won prizes in regional and international competitions, including awards from the President of the Russian Federation and the Governor of the Moscow Region. In 2010, Maria Andreyevna Shlyakhova, a student of the art school, won the Grand Prix of the V International Festival-Competition of Fine Arts "All the Colors of the World—2010" and the Order "Young Talent of Russia—Charoite Star". In 2011, the art school was included in the National Register of "Leading Cultural Institutions of the Russian Federation".
- Elektrostal Patriotic Education Center.

# Industrial park: «ELKO»

Industrial Park «ELKO» is situated in the east of the Moscow region, 35 km from MKAD (Gorkovskoe highway, Nosovikhinskoye highway) in Electrostal.

This is an active industrial territory with a total area of 16 hectares. It has sustainable infrastructure and is fully provided with energy carriers and networks. There are vacant land plots intended for the building and development of the territory, production and storage facilities, and office premises in the territory of the park.

## Characteristics of the industrial park :

**Total area:** 16 Ha;

### **Infrastructure:**

- Total area of production and warehouse facilities - 26,000 sq.m;
- Centralized heating - 1.4 Gcal/h;
- Water supply and drainage - 2.22 cubic meters/h;
- Electric power - 2.65 MW, 3 substations, perspective - 5 MW;
- Internet and telephony

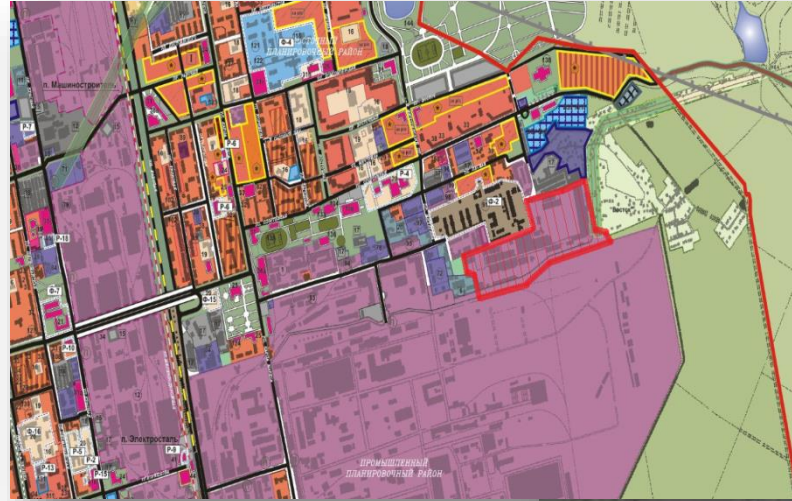

# Industrial site: «TECHNOPARK PROMINVEST»

«TECHNOPARK PROMINVEST» is an industrial complex with developed infrastructure and important communications for product placement. Besides, there are ready production and storage facilities in the territory of the complex.

## Characteristics of the industrial park:

- Total area: 17 Ha;
- Manufacturing and storage facilities with an area of **70,000 m<sup>2</sup>**;
- Electrical power up to **12,000 kW**
- Height – from **4 to 12 m**
- Loading mechanisms, crane beams from **1 to 10 tons**
- Office space with an area of – **5,000 m<sup>2</sup>**
- Open areas up to **30,000 m<sup>2</sup>**
